Baytech Corporation Overview

- Baytech has been engineering, certifying, manufacturing, and marketing NGV fueling system technology since 1991
 - Small Volume Manufacturer (OEM status)
- Earned reputation as leader in high performance CNG fuel injection systems for Chevrolet, GMC, Isuzu, Workhorse models

Recent Baytech Accomplishments

- First 2009 CNG Pickups and Vans certified by CARB and EPA
- First 2009 Medium Duty engine certified by CARB and EPA
- Heavy Duty 2009 CNG 6.0L engine certified by CARB and EPA
- Baytech offers CARB and EPA certified CNG systems for more vehicles than any other company

Baytech System Benefits

- Baytech launched sequential Multi-Point Fuel Injection system in 2004
 - Precise fuel control for very low emissions and high performance
- Engine calibration software optimized for CNG
 - Fully integrated with vehicle control system
 - Diagnostics via standard gasoline scanner equipment
- OBDII system approved by CARB for Baytech's 2009 light/medium duty vehicles
- EPA and CARB emissions certified
